VISHNU KASILYA P

GITHUB | LINKEDIN | vishnulakshya2018@gmail.com | +91-9600671171

Education

Amrita Vishwa Vidyapeetham, Chennai, India **2021 - 2025**

- B. Tech in Computer Engineering, Specialization: Artificial Intelligence | CGPA: **8.92 |** Major GPA**: 9.1**

SPJ Matriculation Higher Secondary School

- *HSE (Class XII), Aggregate: 87%* **2019 - 2020**
- *SSLC (Class X), Aggregate: 97%* **2017 - 2018**

Skills

Proficient in Java, Web Development

Familiar with C | C++ | Java | Python | Machine Learning | JavaScript | NodeJS | React | MongoDB | MySQL | Git | Azure | Open Source | APIs

Work Experience

Freelance | Front-End Developer **Jun'22 - Sep'22**

- Designed custom websites with **HTML**, **CSS**, **JavaScript**, and **React**, consistently meeting deadlines and budget.
- Elevated website **responsiveness** and functionality across all projects, ensuring exceptional user experiences.
- Delivered **5-star** quality, earning positive feedback from satisfied clients.

Projects

Enhanced Kidney Analysis | *Python, Deep Learning* **Oct'23**

*Utilized the **SEDenseNet** architecture to optimize kidney disease analysis through image processing techniques.*

- Demonstrated precision in **classifying kidney conditions**, covering normal, tumorous, and stone-affected kidneys.
- Attained a remarkable **99.56%** accuracy rate in outcome measurement.

Tax Chain | *ReactJS, NodeJS, IPFS, Solidity* **May'23**

*Established a **DAO** on the **Polygon chain** to tackle tax evasion through a unique QR code system.*

- Implemented an efficient product tracking system, improving **tax transparency** for government and tax payers.
- **Enhanced** efficiency, **reduced** costs, and **boosts** trust in the tax system.

AgroLedger | *Solidity, MetaMask* **Apr'23**

*Engineered a website to tackle **agro-food transparency** challenges by integrating **blockchain** and **sensors.***

- Empowered consumers to scan a **QR code** on food packaging for comprehensive product information.
- This system significantly **reduces** waste and fraud while **promoting** sustainable practices.

Rice Crop Yield Prediction | *Python, Microsoft Planetary Hub API* **Feb'23**

Developed and optimized an ML model utilizing Microsoft Planetary Hub satellite data for regional rice yield predictions.

- Attained an impressive accuracy rate of **77.8%,** demonstrating the model's exceptional forecasting capabilities.
- Recognized in the EY Data Science Challenge, ranking **3rd** in India and **17th** globally for accuracy and agricultural impact.

Academic and Extracurricular Achievements

- Secured **AIR 362** out of 100,000+ participants in **CodeKaze'23.**
- **Best Paper Award** in **IEEE ICBDS'23** under Blockchain technology.
- **Finalist** (Smart Digital Hackathon'22).
- **Top 15** in 50 teams **(**Amrita BlockCamp'23).
- **Top 7** in 30 teams (BIT V-Prayukti 23').

Coursework

- Data Structures and Algorithms
- Operating System & Computer Networks
- Database Management System
- Object-oriented programming

Publications

- *Vishnu, A. Rao, and R. George. "Agro-ledger: Blockchain-based framework for transparency in agri-food supply chain." ICBDS'23, in press.*
